General Body Meetings

This past term we spent some time in our general body meetings planning for STEM in Training which will take place February 21st on WPI's campus. We began brainstorming STEM activities as well as academic clubs to invite to participate in the event to help bring STEM education to Girl Scouts!

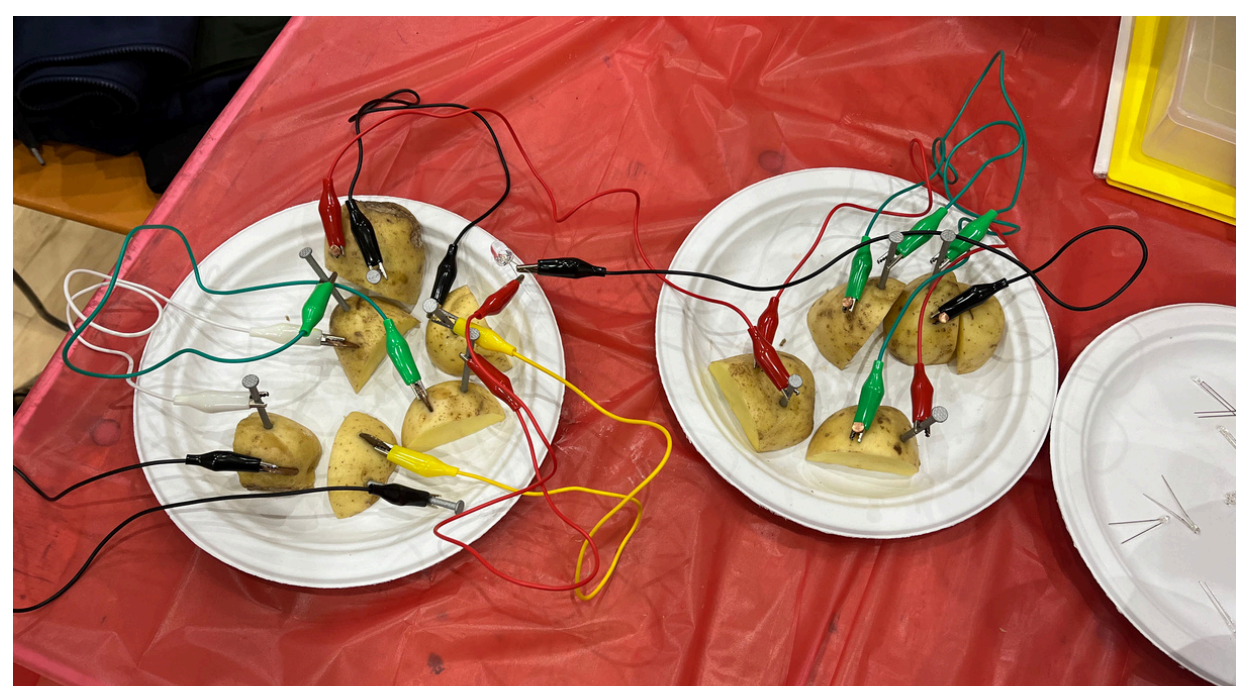

At our final meeting of the term we had a holiday party! We enjoyed hot chocolate while watching the Grinch and painting wooden ornaments. It was a great way to de-stress during finals week and get together one last time before winter break!

Family STEM Night

Campus Girl Scouts volunteered at the Worcester Boys & Girls Club for their annual Family STEM Night. Kids got the opportunity to learn about electricity and circuits by making potato batteries. They also learned about coding by making binary keychains.

Apple Picking

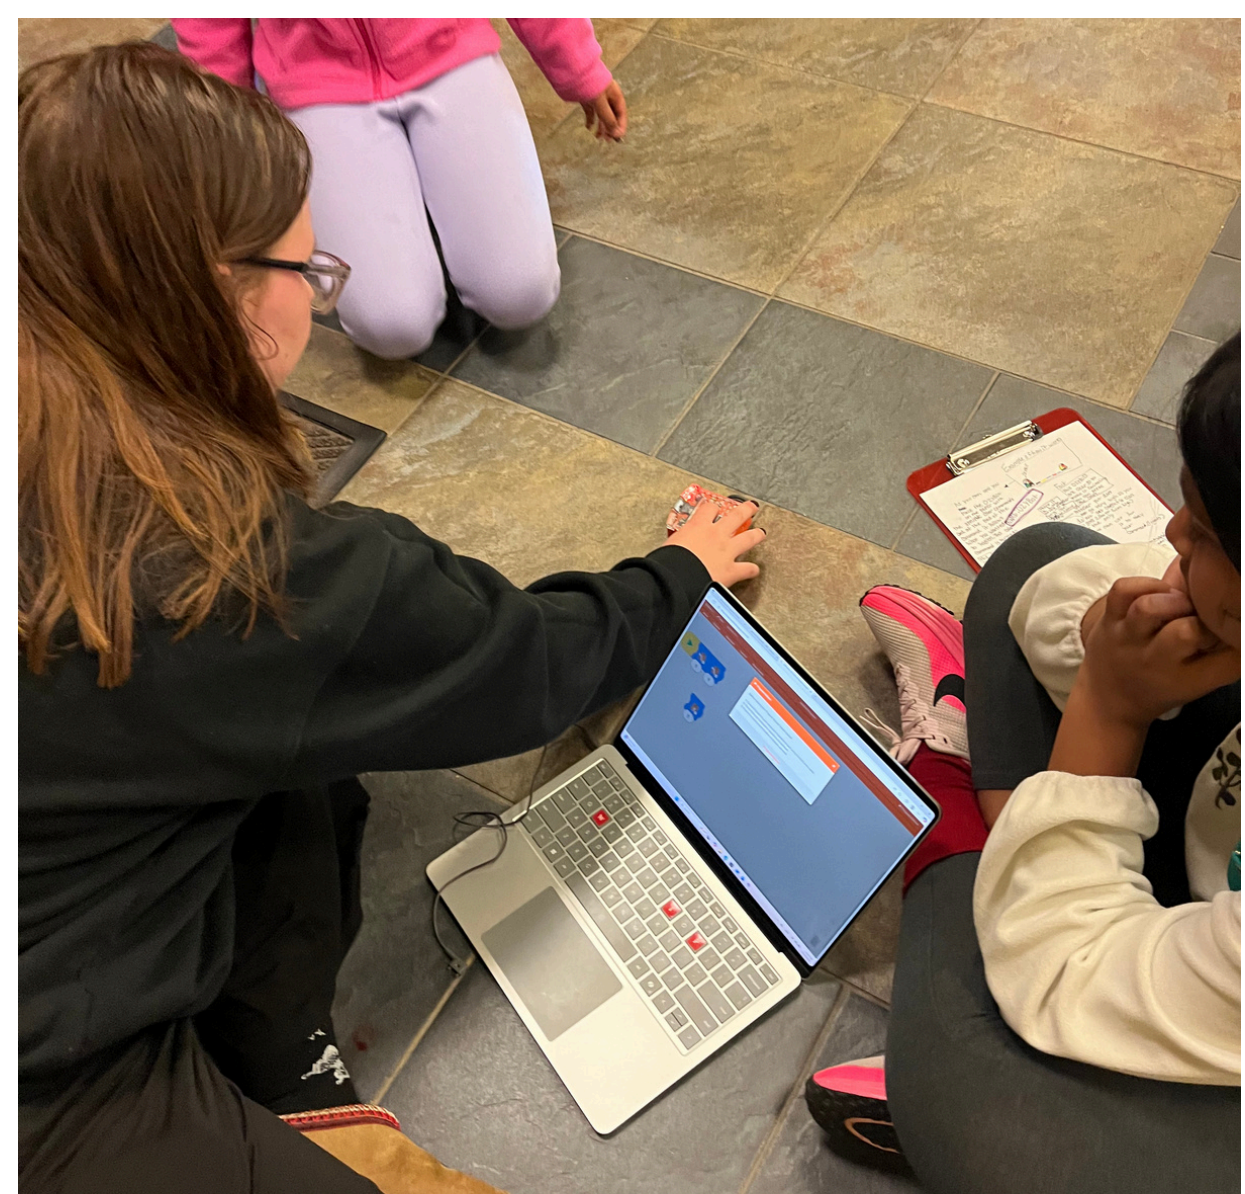

Campus Girl Scouts took a trip to Nicewicz Family Farm for apple picking! Throughout this past year we have built a strong community of friendship and we plan to continue to foster this friendship with fun social events!

Badge Workshop

Campus Girl Scouts partnered with a local troop for a badge workshop. These girls worked towards earning the Robotics Badge. They got the opportunity to create their own robot and present their design to receive feedback. They then learned about coding and debugging in order to code their own robots! Thank you Troop 65214 for having us!

Self Defense Workshop

Campus Girl Scouts hosted a self-defense workshop for our general body members and other WPI students. This was a great event to get involved with other WPI students.

Exec Board Elections

At the end of this term, we held elections for our new exec board. The new board will take over in January at the start of the spring semester. Congratulations to all of the new officers!
